10/19

You were going to send me Bob Trueheft's address. The enclosed review of her book on the Spock trial, from today's Book World (Wash Post-Chi Trib), may not appear out there and may interest her.

I am being offered on t e King/Ray case and the JFK by the American Program Bureau (the same agency offering Lane, Gregory, Shaw, etc.). I have just learned this in non-exclusive, that I may appear not under their auspicies.

Those copies of J in NO that John has are the only extant one. I really want them very much and am prepared to do whatever is necessary to get them when it is possible. If you can convey this to him I will appreciate it and he will be better off for ~~x~~ forgetting he must behave as a congenital louse.

H
